

## **In disguise**

Written by Azad Karimi

Justice is not in the making balance, but balance is in making justice. If you practice justice and respect the truth, you have maintained the balance of nature.

Justice in the balance of justice is the restoration of the lost right to the oppressed person.

It means referring to the truth to restore justice to the oppressed. But you are ignorant, fraudsters, and businessmen people because you instead of paying attention to justice, pay attention to the equality of scales.

You put the oppressor and the oppressed on two sides, and you want to justify the oppressor's oppression with fraud and deceit in favor of the oppressor and make him equal in rights with the oppressed by making the oppressor's feet heavier with lies, hypocrisy, and deceit.

As I said, the criterion for the implementation of the right is the equality of the punishment of the oppressor with the amount of injustice he has committed.

Restoring the rights of the oppressed is equal to the compensation that is paid to him with the severity of the oppression that was done to him by the oppressor.

Don't be involved in sophism! Do not silence the October 7 crime case with propaganda, demonstrations, and intimidation. 3000 Hamas armed forces crossed the border attacked the people of Israel and committed whatever crimes they wanted.

They must be punished. It doesn't matter if you are anti-Semitic or anti-Islam, the important thing is that the war crime was committed by Hamas and Hamas should be punished.

Those who are civilians should be scattered around Hamas anyway so as not to be harmed. They have a chance to escape. But we see on TV that those who remain in Gaza say that they will not leave their land, even if it is temporary. Some of them say that we are happy martyrs because we are fighting against the Jewish infidels. This is not a war of religion and soil. This is a war of hatred and conscience. The people of Gaza are drowned in hatred and the curse of their way of thinking. They are hostile to anyone they think they should be enemy, even if they are not Jews.

But I worry for the people of Israel and how they can live with this kind of thinking in their neighborhood forever.

In any case where there is a smell of violence and militancy, unfortunately, the Palestinians are at the forefront. In enmity with the Kurds, in matters related to burning the Koran or religious disputes. I say this in the depth of preserving morals and conscience.

Unfortunately, this violent spirit of theirs leads them to dangerous and deadly activities. Their population is very small compared to the population of 60 million Kurds, and if we Kurds wanted to treat the Turks, Iranians, and Arabs like the Palestinians, all of us Kurds should have been tried at the International Court of Law in The Hague, but this is not the way. No one in the world defends the rights of the Kurds. Even Trump and Putin sold the Kurds to the corrupt regime of Erdogan and the corrupt regimes of Baghdad and Tehran.

You finally saw that you were lying. You lied that you didn't want Mahmoud Abbas and his group and expelled them from Gaza, but Israel bombed a mosque in the West Bank and we found there is a long tunnel under the mosque that is made by Hamas! What is Hamas doing in the West Bank?

and yesterday Israel bombed the Hamas headquarters in Jabaliya. What is Hamas doing in the refugee camp? How have the Israeli hostages been transported there that is a military place?

All the underground tunnels in Gaza were built with the money of the Iranian nation because the corrupt regime of Iran's mullahs gives the money of the Iranian people to Shia, Sunni, and Zaidi Arab terrorists to make the world unsafe. Now you see that Israel destroys these tunnels with its amazing bombs. Think 400 kilometers of tunnels under the ground.

Where has the soil of these tunnels been transported? Didn't the people of Gaza hear the sounds of cars and explosions under their houses when the IRGC and Hamas terrorists were digging long tunnels under Gaza City?

Finally, you saw that Ali Khamenei denied everything easily... From the day of the October 7th crime until today, he denied the role of the Iranian regime in equipping Hamas 4 times. Even the intelligence agents of the Iranian regime have released videos in cyberspace that say Ali Khamenei has admitted to the existence of Israel. Even inside Iran, the Iranian regime tries to show that Sunni Palestinians hate Shiite Iranians. They have released videos of you Palestinians about this.

Both you Palestinians and the Iranian regime and their supporters hate us Kurds, so I have no pity for you, but I must tell the world that you two groups became victims of your own secret and dangerous conspiracies and issues. You are being punished by God.

Lord Izrael, the angel of death informed me a few days before the massacre of Jews at the hands of extreme Arab Muslims in the south of Israel that His Highness had come to punish the thieves. You endangered the lives of your own innocent people by killing innocent Jews. The angel of death is on earth and will punish the last person. The angel of death is on earth and will punish the last person.

The lion of the desert of Judah, which was sitting quietly, has now risen and roars with rage and tears the belly of everything that stands in its way. Hyenas and foxes surround him, but he is the lamb of God. And the watcher of God has placed him in his shelter. Just as God's glorious presence was placed on the tabernacle of worship, just as God separated a piece from his own soul and created the spirit of life...

God, the creator, has commissioned his watcher, Mashiach, and Enlil angel of death to implement justice on earth.

There is no inviting to modify you. Now is the time for justice. So do not try to deceive God's watcher. Because the time to decide is over. Sit and wait for the punishment. Money, fame, beauty, expensive cars, luxurious life, many children and power, family authenticity, poverty and dervishness and wealth, and everything has stopped behind the wall of time. Today is the day when your actions in the past, are the measure.
